OSEZ LE RECYCLÉ

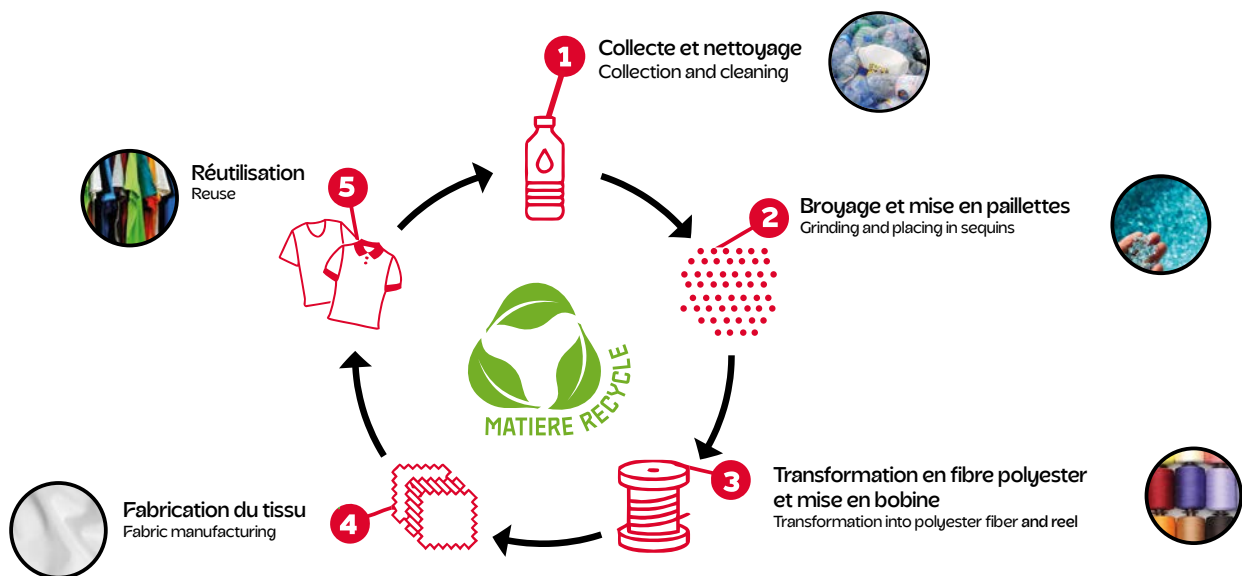

Pensez à la planète

Nous nous engageons dans l'amélioration continue des processus respectueux de l'environnement.
En sélectionnant des tissus polyester provenant de filières recyclées, nous répondons,
à notre niveau, aux exigences pour préserver aujourd'hui notre planète.

We are committed to the continuous improvement of eco-friendly processes.
By selecting polyester fabrics from recycled sources,
we are doing our part to meet today's environmental preservation challenges.

LE PROCESSUS DE RECYCLAGE

TYPOLOGIE DES MATIERES

typology of materials

Nos familles de matières : Interlock, Elasthane, Standard, Membrane, Chaîne et trame

INTERLOCK

Les interlock sont des tissus maille, d'aspect lisse permettant un rendu optimal de la sublimation, tout en ayant un touché soft.

Ils sont dispo en plusieurs grammages correspondant à la technicité du sport pratiqué.

ELASTHANE

Certains tissus utilisent et intègrent dans leur conception des fils en élasthane, afin de conférer au tissu une certaine élasticité. Dans notre collection on trouvera des tissus allant de 4% à 30% d'élasticité.

Le fil élasthane est lourd, donc plus le % est élevé plus le tissu aura un "meilleur tombé", et une meilleure résistance.

STANDARD

La matière dite standard n'est pas lisse comme les interlock. Notre collection propose différents types de structure en plusieurs grammages.

La plus utilisée étant : le «Nid d'abeille» construite sur une base alvéolé en forme de nid d'abeille.

MEMBRANE

Les tissus dits «membrane» sont des matériaux techniques qui agissent comme une barrière protectrice, empêchant l'eau de pénétrer tout en permettant à la vapeur d'eau de s'échapper, ce qui les rend idéaux pour des vêtements respirants et imperméables.

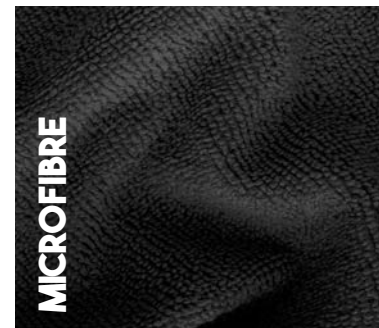

C'est une matière très fine et douce au toucher.

CHAÎNE ET TRAME

En opposition aux tissus type mailles, les chaînes et trames sont issues du tissage.

Concrètement les chaînes et trames sont des tissus sans élasticité mécanique, mais très robustes.

MICROFIBRE

La matière microfibre se compose de minuscules fibres synthétiques en forme de gouttes faites d'un mélange de polyester et de polyamide.

Domaine d'application : survêtements, serviettes, divers empiècements (short de rugby).

DRY CLIM

Grâce à sa technologie avancée, DryClim évacue rapidement l'humidité, gardant l'athlète au sec et à l'aise.

THERMOCLIM

Grâce à sa technologie de broissage, Thermoclim crée une chambre à air qui garde l'athlète au chaud et à l'aise.

DRY STORM

Grâce à sa technologie de collage, DryStorm assure une protection maximale contre les conditions météorologiques défavorables.

ANTI-UV

Grâce à cette technologie développée à partir de tissage utilisant des fils très fins, certains tissus ont des propriétés anti UV.

NOTRE GAMME COTON

SUR MESURE

LE COTON, C'EST QUOI ?

Le coton est une fibre végétale et plate qui entoure les graines de cotonniers. Reconnue pour ses nombreuses propriétés, elle est la fibre la plus utilisée au monde. Souple, douce et confortable, cette plante vivace est un vrai plaisir à porter qu'importe la saison.

POURQUOI UNE GAMME COTON ?

C'est la solution idéale pour créer votre gamme à l'image de votre club ou votre entreprise.
La gamme est 100 % coton, elle est sur mesure avec le choix de 8 couleurs.

PERSONNALISATION

5 propositions de design par produit.
Logo cœur / opposé cœur en broderie ou transfert numérique digital offert.
Autres logos sponsors en transfert numérique digital.

A close-up photograph of a light-colored, possibly white or light grey, fabric with a smooth, slightly glossy texture. The fabric is draped and folded, creating soft, flowing lines and subtle highlights and shadows that emphasize its texture.

NOTRE GAMME **LIFESTYLE**

GAMME LIFESTYLE

LIFESTYLE RANGE

■ VOTRE STYLE, VOTRE EMPREINTE

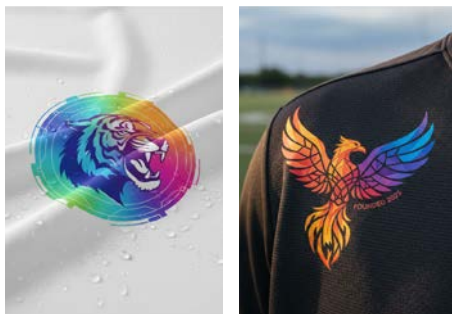

Découvrez notre nouvelle gamme lifestyle, conçue pour fusionner confort quotidien et identité visuelle forte. Cette collection a été pensée pour ceux qui ne veulent pas choisir entre esthétique et qualité technique.

■ L'ART DE LA PERSONNALISATION

Pour que chaque pièce soit unique, nous mettons à votre disposition quatre techniques de marquage premium :

SUBLIMATION HAUTE DÉFINITION

Pour des motifs éclatants et une durabilité totale dans la fibre.

LOGO SILICONE OU SILICONE TWILL

Pour un relief moderne, épuré et une texture soft-touch.

LOGO BRODÉ THERMOCOLLÉ

Un incontournable, les logos brodés apportent un relief très qualitatif et mettent en valeur vos logos et vos supports textiles.

LOGO TRANSFERT DTF

Logos en transferts réalisés en DTF (Direct-to-Film) pour vos marquages en multi-couleur ou quadri.

GAMME LIFESTYLE

LIFESTYLE RANGE

■ TROIS MATIERES, TROIS AMBIANCES

Parce que le toucher est aussi important que le visuel, vous avez la liberté de choisir parmi trois armures (matières) distinctes pour adapter le produit à votre univers de marque.

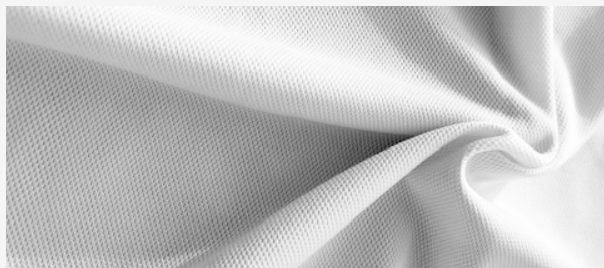

LOCK 100% PES 140-150G/M2

La fluidité d'une maille interlock lisse et respirante, conçue pour bouger avec vous tout au long de la journée.

PIQUÉ – 100% PES – 180 GM/M2

Une maille légère et structurée qui suit chacun de vos mouvements pour un style impeccable en toute circonstance.

INTERLOCK – 100% PES – 200 G/M2

Une matière lisse et généreuse au tombé impeccable, offrant une densité rassurante pour des pièces lifestyle à l'épreuve du quotidien.

■ DEUX COLS, DEUX FINITIONS

Parce que la qualité d'un vêtement se juge à ses finitions, nous vous proposons deux techniques de confection pour vos encolures. Entre souplesse moderne et élégance structurée, trouvez la finition idéale pour parfaire votre gamme lifestyle.

RIB TEINTÉS

Le rib teintés est une maille fine et extensible, teinté dans la masse pour une correspondance de couleur avec votre design. Il offre une finition épurée et un confort optimal.

RECTILIGNE TRICOTÉ

Tricoté sur des métiers spécifiques, le col rectiligne offre une structure supérieure et un maintien impeccable. Personnalisable, il permet d'intégrer des bandes ou des rayures colorées pour une finition premium et sur-mesure.
